CAHOOTS

By Marina Levy

Background

CAHOOTS, EPD, MCSLC

- CAHOOTS (Crisis Assistance Helping Out On The Streets)
  - They provided mobile crisis intervention in Eugene prior to April 2025.
  - Each team consists of a medic and a crisis worker.
- In August 2024 MCSLC (Mobile Crisis Service of Lane County) was introduced
  - They do not have medics on staff and service the whole county.

Research Question

Hypothesis

How did CAHOOTS, MCSLC, and EPD call associations change in August 2024?

My hypothesis is that there will be a decrease in calls for CAHOOTS and no change in call volume for EPD after August 2024.

Data and Methods

Descriptions

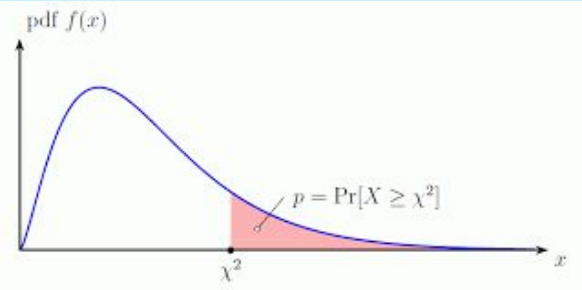
- I used the the data provided by epd ranging from January 2014 to April of 2025
- I dropped any columns where the prime unit was not stated clearly
- I sorted by CAHOOTS or not in the prime unit column and separated the data for before or after August 2024
- I used Chi squared test to determine statistical significance of the top 20.

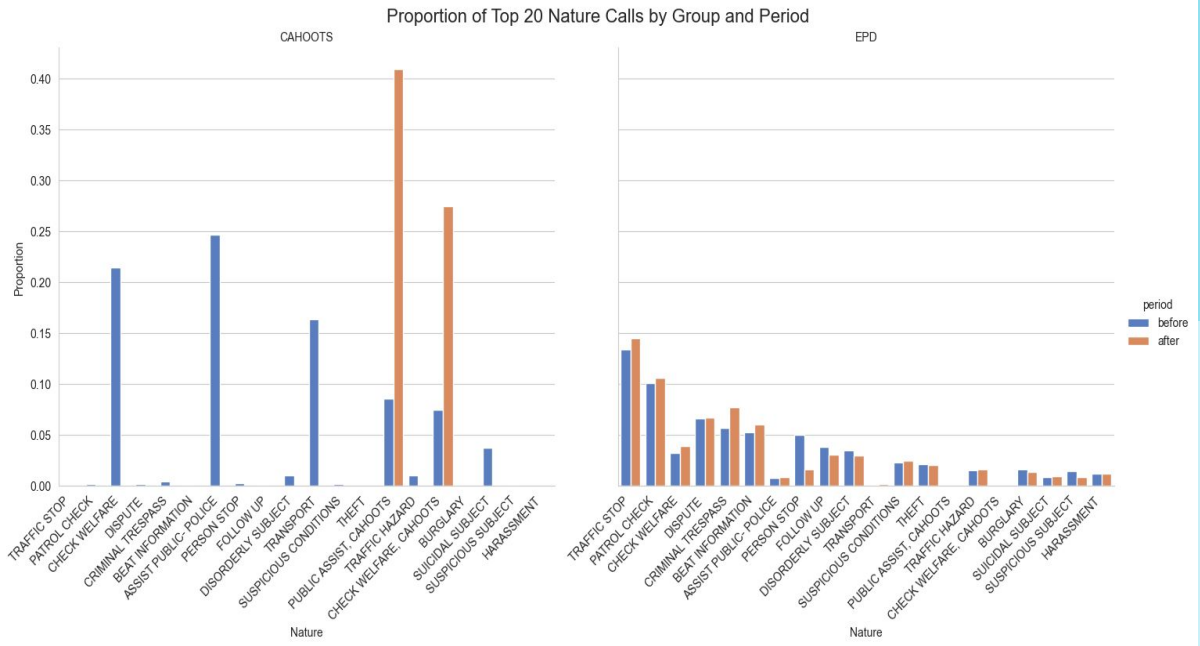
	yr	service	calltime	callsource	nature	beat	priority	zip	primeunit	date
0	2014	LAW	00:00:05	SELF	TRAFFIC STOP	EP05	6	97402	5Z51	2014-01-01
1	2014	LAW	00:01:50	SELF	TRAFFIC STOP	EP02	6	97401	5T82	2014-01-01
2	2014	LAW	00:05:17	PHONE	DISPUTE	EP01	3	97401	5E93	2014-01-01
3	2014	LAW	00:08:36	SELF	TRAFFIC STOP	EP02	6	97401	5E31	2014-01-01
4	2014	LAW	00:10:21	E911	THEFT	EP05	3	97402	6E45	2014-01-01

Results

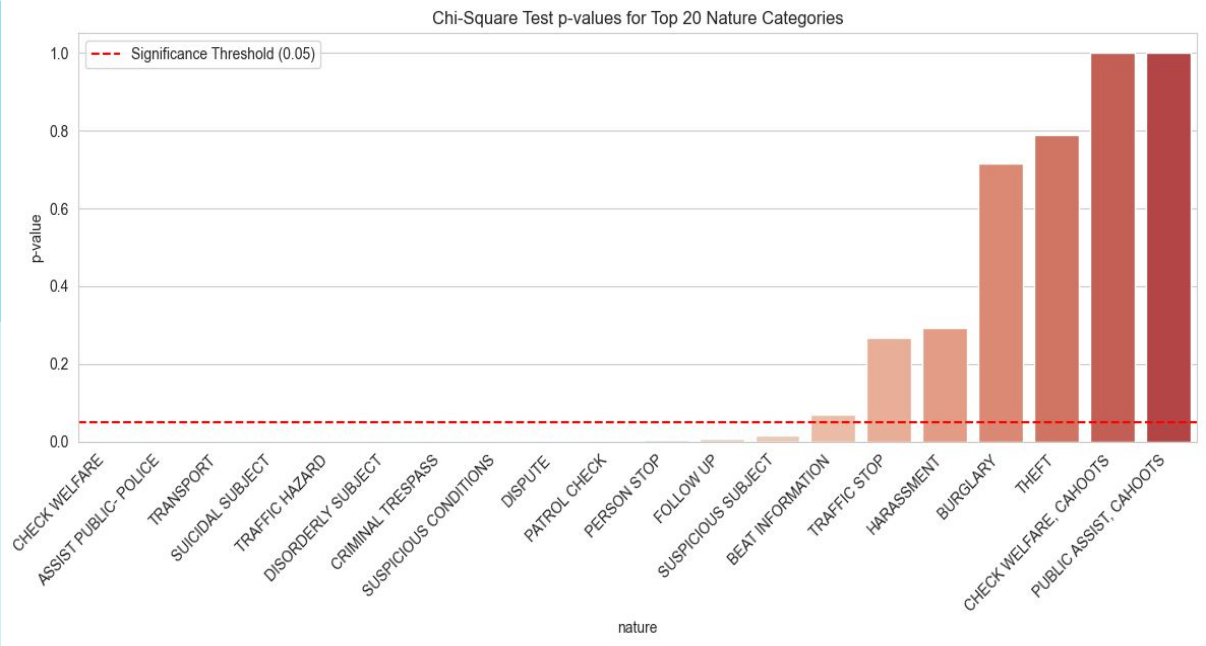
Chi squared

Proportion of the 20 most common call types from before and after August 2024 by CAHOOTS and EPD.



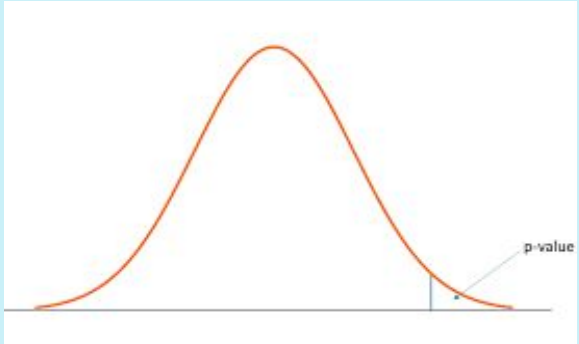


Results



P-values

The p-values of the top 20 most common reasons for calls.



Discussion

Results, caveats and complications

- Check welfare vs Check welfare, CAHOOTS and Public assist vs Public assist, CAHOOTS
- MCSLC not represented
- General human data collection errors

- There wasn't much change to the call types for EPD
- There was some change in call types for CAHOOTS

Acknowledgements

Thank you!

- Thank you to CAHOOTS and the city of Eugene
- Thank you Profesor Rori Rohlfs
- Thank you classmates
